

Southside Regional Medical Arts Pavilion

Medical

Project Scope:

The construction of a two story, 32,750 S.F. Medical Office Building located next to Southside Regional Medical Center in Petersburg, VA. This concrete tilt-wall constructed facility will include a new cancer center and other clinical spaces which will support the Doctors working at the hospital. The exterior of the Medical Arts Pavilion has been designed to match the existing hospital making the new building look like an extension of the existing facility.

Location:

Petersburg, Virginia
